Second Meeting of the Southampton

Circuit of the Methodist Church. FRANKLIN, VA., April 1.—(Special.)second quarterly conference of the Southampton Circuit of the Virginia Conference, Methodist Episcopal Church, South, was held in the Methodist church at this place on Saturday. Much business of importance was transacted. A commit-tee was appointed to arrange for a Sun-day-school mass-meeting to be held within the bounds of the circuit. The follow-ing delegates and alternates were re-elected to represent the charge at the district conference to be held at Benn's church in Isle of Wight county some time during the summer: W. N. Sebrell, W. H. Vincent, and J. C. Parker; alternates-W. W. White, E. W. Crichton, and E. F. Story. Rev. Joseph H. Amiss, the presiding elder, preached twice yesterday, but will appear to-morrow.

Your correspondent notices that the Suffoik correspondent in a letter of the 30th ultimo, published in Sunday's Dispatch, says that motion was made in the Circuit Court of this county by the defendant company in the case of Holland's administratrix against Seaboard and Roanoke railroad to move the case to some other circuit, on the ground that it could not get a fair and impartial trial in this county, and that after argument on the motion Judge Prentis moved the case to Greenesville county. This statement is misicading and unjust to the jurors of this county in that it leaves the impression that the case was moved on, D. C. April 1.—(Speare per formulation). Speare yet four presidential as in Virginia that are held as. The reason for this is stated by me in a communication published in the Dispatch last Frklay. The attorneys for the defendant in arguing their motion took the position that, on account of peculiar reasons, not necessary to repeat, the trial of, the cause here, on account of those reasons, might be attended with some advantage to the plaintiff, and that as the administration of justice should be above even a suspicion of unfairness they asked its removal. In their argument they took occasion to specially compliment the juries of Southampton for their fairness. The Judge did not decide the questions involved in the argument, but moved the case solely on the ground that it was improper for him to sit in it, and it is only fair to the jury and to those whose interests were involved by the questions raised in the argument to say that it is the impression of nearly every one that had the Judge decided the motion upon the questions raised in the argument that the case would not have been movel.

RESULT OF RETIREMENTS.

The order issued March 1st almost decimated the regiment. The two field officers—Colonel Jones and Major Derbyshire—were relieved, as were also captain and Adjutant Sheppard, Captains Bossieux, of Company A: Anderson, of F; and Gasser, of D, and Lieutenants Davis Mills, Stringer, Jeter, and Payn-President Glover took the floor (Mr. Bloomberg in the chair), and moved that he item of \$10,000 for electric-lights for he city and that of \$50,000 for streets generally be struck out, and that the rethe budget be adopted as a whole This was agreed to after some discussion, and Mr. Glover then or-fered that \$10,000 instead of \$50,000 be ap-propriated for electric-lights. He thought Davis, Mills, Stringer, Jeter, and Paynn view of the pending circumstances the

in view of the pending circumstances the irst-named sum was as much as the city thould now appropriate for this purpose. Mr. Landerkin explained why the sum of \$20.00 had been put down by the Com-mittee on Finance. It had been depmed an advisable amount for lights in view of the movement for an electric plant, and would at least do until this coestion. was settled.

Mr. Glover did not think the amount ought to be more than \$19,000 for the same reason. The city, he said, owed the electric-light company that sum, and he was opposed to giving the company a contract for another year as long as there was a prospect of the city procuring its own electric plant.

ing its own electric plant.

Mr. Wallerstein agreed with Mr. Landerkin. He did not feel that the city should be cut off in darkness, and thought it would be at least a year before the city could establish its own electric-light plant. Mr. Davis took the ground that Mr. Gaver had, but felt that the sum should be \$15.000.

Mr. Davis's suggestion was accepted by the president, but Mr. Caskle made a vicorous protest against such an amendment. He was not willing to keep the city in darkness for six months while waiting for the electric plant to be built, which proposition he did not think the Beard of Alisemen would agree to.

Mr. Murphy intimated that the electriclight company would light the city for \$20.000 intend of \$20.000. succeed Colonel Phillips, promoted to the brigadier-generalship. Captain George Wayne Anderson's name has been prominently spoken of in connection with this office. It is not known whether Major Derbyshire will be a candidate or not. The resignations of Captain Anderson, Captain Bossieux, and several of the lieutenants are in the hands of the Governor. It is probable, however, from all that can be learned, that he will not act men them. Mr. Murphy intimated that the electricate company would light the city for a cop instead of \$50.00 a year, with the cet that the city would abandon its itention to establish its own plant, when he company could raise the price again, for was going to fight hard for a plant, and would rather have gas, or even andles, than to see the city make another contract with the present com-

During his command of the regiment matters have progressed smoothly, and the officers, who were at variance, having been removed from the source of trouble, have lapsed into a state of quietude and peacefulness which is mest gratifying to the well wishers of the organization.

This was noted by the Governor, and, becoming imbued with the belief that an end had been put to the inharmonicus spirit that prevailed, he issued the order of restoration. There is little doubt that this was a wise move, and it has been commended on all sides since it was made public.

A Dispatch man saw Captain George Wayne Anderson yesterday, and received from him an assurrance that, so far as he was concerned, peace and quiet should prevail hereafter in the regiment. Captain G. Gray Bossieux and Lieutenant Morgan R. Mills made much the same statement.

SOMETHING ON WHICH THE DOC-TORS DO NOT DISAGREE,

Johnson's Universal Cyclopaedia-Published by D. Appleton & Co. FROM DR. SLEDD.

FROM DR. SLEDD,

RICHMOND, VA., February 15, 1895.

My Dear Sir.—The examination of Johnson's New Encyclopaedia has been a real pleasure to me. The appearance of the work commends it. Its material is good, its mechanical execution excedent. Its maps charts, and numerous ill strations are in the best style. Its definitions and discussions are concise, yet comprehensive; simple, but strong, and fully abreast with the age. Every page bears the marks of diligent research and ripe scholarship. To all who need such a work I recommend Johnson's.

Very respectfully, R. N. SLEDD. Very respectfully, R. N. SLEDD.

WHAT DR. COOPER SAYS.

WHAT DR. COOPER SAYS.

RICHMOND, VA., February 20, 1825.

I have used Johnson's Encyclopaedia since its publication—twenty years ago. It has met all my wants, and answered all purposes required. The new edition naturally attracted my interest at once. It is of great value. The progress of sociological and scientific thought is seen in roost striking form. The improvement in most striking form. The improvement of type and illustration is very marked. I had rather have Johnson's than any other I know of. It will in this new form win a much more honorable dist GEORGE COOPER.

FROM THE STATE LIBRARIAN.

RICHMOND, VA., February 19, 1836.
I have examined Johnson's Encyclopaedia very carefully. I think, for ready reference, it possesses greater advantages than any I have seen. While not so exthan any I have seen. While not so exhaustive as the Brittanica, a person may learn from it in a short time all that he usually desires to know, without losing time in reading about what he feels no interest in.

For my own use I would rather have it than any of the encyclopaedias now attainable.

W. W. SCOTT,

State Librarian.

FROM DR. HALL. RICHMOND, VA. February 29, 1895. Having examined the prospectus of the New Johnson's Encyclopaedia, I take New Johnson's Encyclopaedia, I take pleasure in giving expression to the favorable impression I have received of it.

I. The reputation of the firm publishing this work is, of course, a guarantee of excellence in the make up of the book, and this is found on inspection to be first class in every respect.

2. The list of editors and contributors embraces the names of specialists so eminent that they are almost household words. The signed articles by those experts insure the latest and most au-

perts insure the latest and most au

thentic information.

3. The rapid development of knowledge and advancement in new methods of investigation in biological and electrical science, to go no further, renders any work inndequate for present use which is 10 years old. The newest encyclopacitis, therefore, the property of t work inadequate for present use which is 19 years old. The newest encyclopaedia, therefore (no other things being even nearly equal), is not only the best, but well nigh the only satisfactory one. For these reasons, among others, I take great pleasures in commending the new edition of Johnson's Universal Encyclopaedia.

Pastor First Christian Church.

FROM DR. NELSON. RICHMOND, VA., February 25, 1895.

I regard Johnson's Encyclopaedia the best in our language, certainly as a book of reference it is unsurpassed. JAMES NELSON.

EXTRACT FROM LETTER OF DR.

BROADES. "I think there can be no doubt that the new edition of Johnson's Encyclo-paedia now appearing will be the best encyclopaedia in existence. President Southern Eaptist Theological

will remain but a short time longer in the city, and persons desiring the above great work should less no time in writing him. He can be found at the Exchange Hotel.

## A PAIRYLAND SCENE.

Julius Sycle & Son. The establishment of Julius Sycle & reception awaited their thousands of patrons who visited the beautiful store. Julius Sycle & Son had long been preparing to make this particular opening ecipse all their previous displays, and memorably did they succeed. The latest styles of the richest dress fabrics, lares, rithous, trimminus, and everything else in their line had been accumulated for the opening, and these were displayed with most artistic decorative effects. Here, there, and everywhere sliks, sat us, laces, and the whole category of materials that so enchant the eye of womankind were festioned, looped, and intertwined with an eye to harmony and graethat was simply a triumph in chase that was simply a triumph in charce or amentation, and the whole was re-lieved and emphasized by a profuse of position of potted plants and ferns. The facilies reveiled in the scene, and not not be found in the stock. From the dry-goods department proper, through the upper floors, where are the spring wraps carpets, laby-carriages, etc., the people rearned and enjoyed. The house presented each visitor with a unique and handsome souvenir of the occasion. The constant stream of friends of the house continued to pour in until the closing hour. Truly, the occasion was an event which will be remembered by all who called at the establishment.
